

CMA15**SA Series

FEATURES

Horizontal discharge condenser is compact in size with an alternative footprint to fit in tight spaces without detracting from landscaping and outdoor living areas. This also makes it great for apartment complexes and condominiums.

- New variable capacity inverter compressors
- DOE 2023 Compliant in all States: Minimum 15.2 SEER2 in all models
- Less expensive than traditional top-discharge condensing units
- Compact design coupled with standard wall brackets allow for multiple condensing units in the same footprint – ideal for light-commercial applications
- Ultra quiet operation-rated as low as 57 decibels
- Attractive cabinet is galvanized steel with powder coated finish for durability, in attractive neutral color
- Low voltage 24V control system for universal use
- Bio-engineered fan blade designed for efficient, quiet operation
- R410A refrigerant

HORIZONTAL DISCHARGE CONDENSER

1 to 4 Tons

Six models to choose from
12,000 to 48,000 BTUH

COOLING

5°F (-15°C) – 122°F (50°C)

Full line of AHRI matches to obtain the highest possible of efficiencies.

AHRI reference numbers included on page 2.

Warranty—7 years on compressor, 5 year on parts
(Some limitations apply; see printed warranty for details.)

"This product complies with all California product labeling laws including, but not limited to, the Safe Drinking Water and Toxic Enforcement Act of 1986, more commonly known as Proposition 65."

Due to ongoing product improvements, specifications and dimensions are subject to change and correction without notice or incurring obligations. Determining the application and suitability for use of any product is the responsibility of the installer. Additionally, the installer is responsible for verifying dimensional data on the actual product prior to beginning any installation preparations.

Third party incentive and rebate programs have precise requirements as to product performance and certification. All products meet applicable regulations in effect on date of manufacture; however, certifications are not necessarily granted for the life of a product. Therefore, it is the responsibility of the applicant to determine whether a specific model qualifies for these incentive/rebate programs.
